

BEWARE OF PAPER ON THE BACK WINDOW OF YOUR VEHICLE.

This is for people who are getting to their car in a lonely parking lot

Heads up everyone! Please keep this circulating. You walk across the car park, unlock your car and get inside. You start the engine and put it into Reverse. When you look into the rear-view mirror to back out of your space, you notice a piece of paper stuck to the middle of the rear screen. So you stop, and jump out of your car to remove that paper (or whatever it is), because it is obstructing your view. Then when you reach the back of your car, is when the car-hackers appear out of nowhere. They jump in and take off. They practically run you over as they speed off.

And guess what, ladies? I bet your purse is still in the car. So now the Car-jacker has your car, your home address, your money, and your keys. Your home and your whole identity are compromised!

BEWARE OF THIS NEW SCHEME THAT IS NOW BEING USED.

If you see a piece of paper stuck to the back window, lock your doors and Just drive away. Remove the paper later. And be thankful that you read this E-mail. I hope you will forward this to friends and family, especially to women. A purse contains all kinds of personal information and identification documents, and you certainly do NOT want this to fall into the wrong hands.

Please tell all your friends

Source: Warning from AASI

There was a warning on a similar subject for people collecting their vehicles in a lonely parking lot. Miscreants may throw an egg on the windshield. Do not try to remove it by operating the windshield wiper. Doing so makes the glass totally opaque and one will have to get out of the car. Police advise that in such a case, raise all the windows, lock the car from inside and raise an alarm. ED, CAI
